

DA GILES LTD

Road Surfacing & Groundworks Contractors

Playground Markings

Our Material

We only use the highest quality and most durable preformed thermoplastic, providing many advantages over traditional painted or hot applied systems. All our playground markings are precision waterjet cut, allowing us to create extremely intricate designs. What's more, these thermoplastic markings are highly versatile meaning they can be fitted to most surfaces including concrete and tarmac.

- ◆ High UV resistance – the colours will stay bright and won't fade
- ◆ Available in 26 colours
- ◆ Non-toxic
- ◆ Sustainably manufactured
- ◆ Contains no lead or chromates
- ◆ Safe anti-slip finish
- ◆ CNC cut to enable complex designs
- ◆ Lasts 10 times longer than paint

Build your own Trail

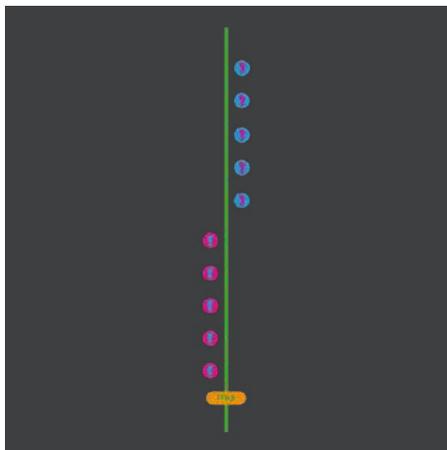

We understand one size doesn't always fit all, so it's your time to be creative!
Choose your sections to build your own custom trail.

Each section is between 4m and 5m long plus 2m of line before and after the station. The sprint station is up to 8m long.
